(57) **ABSTRACT**

The invention relates to the use of Epidermal Growth Factor (EGF) in a preferably-injectable pharmaceutical composition which is administered by means of infiltration into and around chronic cutaneous ischaemic lesions in order to prevent diabetic foot amputation. Said composition can be administered to recently-created surgical surfaces damaged by the effect of acute reperfusion with oxygenated blood following prolonged ischaemia, thereby preventing further surgical procedures and favouring the preservation of the extremity. The aforementioned composition can be used to improve (i) the cell microenvironment, thereby increasing the reparative and defensive capacity and viability of the tissues and (ii) the cicatrization of cutaneous ischaemic lesions, thereby stimulating cell proliferation. The invention is suitable for use in human, veterinary and experimental medicine, specifically in vascular angiology and surgery, dermatology, burn treatment and reconstructive surgery and geriatric medicine. Said composition can be used for recalcitrant ulcers which are associated with lesions in the macro and/or microvasculature, patients with inadequate lymphatic and/or venous return and ulcers or other lesions which are difficult to cicatrize and/or heal.

CERTIFICATE OF INVENTION PATENT

Title of Invention :Use of epidermal growth factor in the manufacture of a pharmaceutical injection composition for preventing diabetic limb amputation

Inventor(s): BERLANGA ACOSTA, Jorge; FERNANDEZ MONTEQUIN, Jose I.; VALDES PEREZ, Calixto; FRANCO PEREZ, Neobalis; ROJAS CONSTANTIN, Ingrid; SANTANA MILIAN, Hector; CHACON CORVEA, Larissa; GUILLEN NIETO, Gerardo E.; HERRERA MARTINEZ, Luis; CANAN-HADEN FRIAS, Leonardo; GERONIMO PEREZ, Haydee; SOTOLONGO PENA, Jorge;

Patent No.: ZL 02828268.X

Filing Date: December 4, 2002

Patentee(s): CENTRO DE INGENIERIA GENETICA Y BIOTECNOLOGIA;

Issue Date: March 28, 2007

After the examination performed according to the Chinese Patent Law, the patent right is granted. The Certificate of Patent is therefore issued and the status of the patent has been recorded on the Patent Register. The patent right will be effective as of the issue date.

The term of the patent is twenty years, counting from the filing date. The patentee should pay annuities according to the provisions prescribed in the Chinese Patent Law and its Implementing Regulations. Payment of annuities for the patent shall be effected within one month prior to December 4, each year. Failure to pay the annuities would result in the expiration of the patent right at the end of the last annual term.

The Certificate records only the legal status of the patent when it is granted. Items concerning the transfer, pledge, invalidation, termination and restoration of patent right, as well as the change of patentee's name, nationality, address, etc., are to be recorded on the Patent Register.

Brevet canadien / Canadian Patent

◆ Le commissaire aux brevets a reçu une demande de délivrance de brevet visant une invention.

Ladite requête satisfait aux exigences de la *Loi sur les brevets*. Le titre et la description de l'invention figurent dans le mémoire descriptif, dont une copie fait partie intégrante du présent document.

Le présent brevet confère à son titulaire et à ses représentants légaux, pour une période expirant vingt ans à compter de la date du dépôt de la demande au Canada, le droit, la faculté et le privilège exclusif de fabriquer, construire, exploiter et vendre à d'autres, pour qu'ils l'exploitent, l'objet de l'invention, sauf jugement en l'espèce rendu par un tribunal compétent, et sous réserve du paiement des taxes périodiques.

◆ The Commissioner of Patents has received a petition for the grant of a patent for an invention. The requirements of the *Patent Act* have been complied with. The title and a description of the invention are contained in the specification, a copy of which forms an integral part of this document.

The present patent grants to its owner and to the legal representatives of its owner, for a term which expires twenty years from the filing date of the application in Canada, the exclusive right, privilege and liberty of making, constructing and using the invention and selling it to others to be used, subject to adjudication before any court of competent jurisdiction, and subject to the payment of maintenance fees.

CERTIFICATE OF GRANT OF A PATENT

In accordance with Section 31 (2) of the Patents Act 1983 a patent for an invention having grant number MY - 139214 - A has been granted to CENTRO DE INGENIERÍA GENÉTICA Y BIOTECNOLOGÍA in respect of an invention having the following particulars :

TITLE

**USE OF PHARMACEUTICAL COMPOSITION CONTAINING
EPIDERMAL GROWTH FACTOR (EGF) FOR PREVENTING
DIABETIC LIMB AMPUTATION**

FILING DATE

: 18 DECEMBER 2002

PRIORITY DATE

: 20 DECEMBER 2001

**NAME OF
INVENTOR**

- : 1) BERLANGA ACOSTA, JORGE
- : 2) FERNANDEZ MONTEQUÍN, JOSÉ I.
- : 3) VALDÉS PÉREZ, CALIXTO
- : 4) FRANCO PÉREZ, NEOBALIS
- : 5) ROJAS CONSTANTIN, INGRID

REPUBLIC OF SOUTH AFRICA

REPUBLIEK VAN SUID AFRIKA

PATENTS ACT, 1978

CERTIFICATE

In accordance with section 44 (1) of the Patents Act, No. 57 of 1978, it is hereby certified that

Centro de Ingenieria Genetica Y Biotecnologia

has been granted a patent in respect of an invention described and claimed in complete
specification deposited at the Patent Office under the number

2004/5612

A copy of the complete specification is annexed, together with the relevant Form P2.

In testimony thereof, the seal of the Patent Office has been affixed at Pretoria with effect

from the **25th** day of **May 2005**

A large red star-shaped seal, likely a stamp or a piece of tape, is attached to the bottom left of the certificate. It has a serrated edge and is partially obscured by a yellowish stain.

(57) Реферат:

Изобретение относится к медицине, в частности к способу лечения ишемического, невропатического или реперфузионного поражения у пациента-диабетика, который включает местную инфильтрацию фармацевтической композиции, которая содержит эпидермальный фактор роста (EGF), в ткань в разных точках инфильтрации, к самому поражению

и вокруг него.
