

**5th International
Symposium
Cancer
2025**
July 3rd to 7th
Iberostar Selection Varadero, Cuba

WELCOME

The Center of Genetic Engineering and Biotechnology (CIGB) is pleased to announce the **5th International Symposium CANCER 2025** to be held in Iberostar Selection Varadero, Cuba, from **July 3rd to 7th, 2025**.

This five-day event will bring together basic scientists, medicinal chemists, pharmacologists, biotechnologists, clinical investigators, and other allied professionals from around the world, interested in the fields of cancer pathogenesis and new targeted therapies development. The meeting will be an excellent opportunity to expose the translational nature of modern biomedical and pharmaceutical research. Within the event, we will dedicate special attention to antiangiogenic passive and active immunotherapeutic strategies and also to the combinations emerging in this field, particularly with checkpoint inhibitors.

GENERAL TOPICS

- Cancer Immunotherapy with a focus on angiogenesis and checkpoint inhibitors
- Drug combination with checkpoint inhibitors
- Cancer Targeted Therapy
- CAR-T Cell Therapy
- Tumor Microenvironment
- Preclinical and early-phase clinical development
- Clinical trials phase II-IV design and results
- Soluble and cellular Biomarkers of Response and Prognosis

If you are in the position to accept this invitation to deliver a Lecture, we would greatly appreciate receiving your confirmation to the Scientific Organizing Committee.
