

# **1st International Congress on Clinical Research with Biopharmaceutical Products**

**Melia International Varadero Oct 20-24**

**Dear,**

The **1st International Congress on Clinical Research with Biopharmaceutical Products, Clinical Biopharm 2025**, will take place in Varadero, Matanzas, Cuba, from October 20 to 24, 2025. This is a biannual scientific event organized by the Center for Genetic Engineering and Biotechnology (CIGB) in Havana.

On this occasion, three symposia will showcase results of scientific and social impact during the clinical development of biopharmaceutical industry products. For more information, access the link: <https://www.cigb.edu.cu/en/event/clinical-biopharm-2025/>

It will be a space where clinical specialists, scientists, businessmen, and opinion leaders will exchange their experiences and update their knowledge on clinical research involving innovative therapeutic products. The program will include a broad scientific focus on advances in oncology in the prevention, diagnosis, and treatment of cancer; research into interferons, cytokines, and other biopharmaceuticals; and clinical evaluations in autoimmune, cardiovascular, neurodegenerative, and cerebrovascular diseases, among others.

We respectfully request the financial collaboration of your entity to enhance the success of this congress.

Please do not hesitate to contact us if you need more information or are interested in supporting and/or assisting in the development of this important meeting:
